## Enzyme with Water Soluble Fertilizer

### GENERAL INFORMATION

The phosphatase enzyme contained in CONVERT™ powered by ETHER™ Enzyme Technology releases phosphate from organic phosphate sources in the soil. The mannanase enzyme releases sugars from polysaccharide chains.

This product is designed for dissolving in water and applied through fertilizing equipment, injected into irrigation systems into actively growing root zones, or injected near the seed during planting. It has a low salt index, so it is ideal for use as a starter or sidedress fertilizer applied directly to the soil.

CONVERT is recommended for use on, but not limited to, vegetable and row crops, deciduous fruit and nut trees, citrus, avocados, vine and berry crops, pasture and range grasses and most other crops.

### DIRECTIONS FOR USE

**Compatibility:** CONVERT may be applied separately or in conjunction with most other fertilizers. A compatibility test is recommended if the desired combination has not been previously used.

DO NOT use this product with ammonium thiosulfate, potassium thiosulfate or other high pH or high free-ammonia products. When mixing with UAN solutions, add one gallon of water for every one gallon of UAN solution and blend well before adding CONVERT to insure complete and thorough mixing.

**Mixing:** Dissolve the recommended amount of CONVERT into approximately one half the required water. Slowly add the remaining water while maintaining constant agitation. Water quality and temperature will determine maximum solubility. Warmer water temperatures increase solubility and shorten dissolving time. As this product goes into solution, the water temperature will drop. Therefore it is important when preparing concentrated solutions to allow for this temperature drop to insure that the fertilizer is completely dissolved.

### RATE RECOMMENDATIONS

Dissolve 5-30 lb in sufficient water to treat one acre. DO NOT exceed 1 lb CONVERT per gallon of water. Repeat as needed.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to Streamline Ag and giving the lot number which is found on the bag/label.

### GUARANTEED ANALYSIS 12-58-0

Total Nitrogen (N)..... 12.0%  
12.0% Ammoniacal nitrogen  
Available Phosphate (P<sub>2</sub>O<sub>5</sub>)..... 58.0%  
*Derived from monoammonium phosphate.*

### ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Phosphatase ..... 5.0 x 10<sup>2</sup> µUnits/g  
Mannanase ..... 2.2 x 10<sup>6</sup> µUnits/g

### PRECAUTIONARY STATEMENTS

Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Store away from heat, direct sunlight and incompatible materials. Best stored in an enclosed building capable of maintaining temperature below 110°F. Follow first in, first out inventory management practices. Dispose of contents/container in accordance with local regulations
